

**In October 2024,
Mitsui & Co. Plant Systems, Ltd.
was reborn as
Mitsui & Co. Project Solutions, Ltd.**

Keep changing for an ordinary but precious life

There are things that should remain the same,
no matter how times change.

- A life with electricity whenever you need it
- Decent transportation systems
- Rich water resources
- Beautiful landscape we want to leave for the future
- Ordinary, but happy and peaceful days

That's why Mitsui & Co. Project Solutions Ltd. will change.

We will change to keep our precious things unchanged.

We will reform our business models, actively pursue business investments,
and take many more bold initiatives.

Toward realizing a decarbonized society, we have numerous ideas and
approaches to explore.

- Creation of renewable energy from solar and wind power
- Conversions to the next-generation fuel using ammonia and hydrogen
- Recycling resources

While there are still many issues left unanswered,

Mitsui & Co. Project Solutions Ltd. is determined to take on the challenges.

We are standing at the starting line.

Take a step forward.

Let's change.

So that we can keep our stable ways of living unchanged.

Our New Mission

Our promise

Bring reliable safety and security to every corner of society.

Support every person, community,
and society with dependable infrastructure.

In October 2024, Mitsui & Co. Plant Systems, Ltd.
changed its name to Mitsui & Co. Project Solutions, Ltd.
Our name is not the only thing that has changed.

We will transform ourselves into a company capable of creating even
more effective solutions for social issues and delivering real value to society,
which includes realizing a decarbonized society.

By adopting various new business models that reflect the ever-changing
needs of society, we will expand our service- and solutions-based business.
Pairing this with our traditional role as a trading company specializing in infrastructure,
a new chapter of our business will be based on these two main pillars.

We will change
to keep our stable ways of living unchanged,
in a rapidly changing social environment.

Our New Vision

What we envision for the future

Provide solutions for the future of infrastructure

Shape optimal infrastructure toward driving decarbonization and solving other social issues.

We will strive to realize a decarbonized society from various perspectives, including the operation of facilities that contribute to the further development of renewable energy, CO₂ capture, and the creation of supply chains for ammonia and hydrogen as next-generation fuels, as well as energy management, and recycling.

Our New Values

Values we embrace to achieve our goals

Challenge

Boldly rise to the challenge and open up paths to the future.

Consolidate

Respect diversity and consolidate the power of individuals.

Persevere

Give it our all and persevere through to the end.

With integrity

Ensure integrity for ourselves, our business, and society.
